	Gila Bend Unified School District, #24 Amendment #2		308 N Martin Ave Gila Bend, AZ 85337
	RFQ: 19-04-19 PROJECT: Select Bidders for New K-12 Campus in Gila Bend	Page 1 of 6	

July 10, 2019

This Amendment is released to all firms interested in this project.

1. The District wants to do everything it can to encourage those firms who do great work but have not landed many new builds to respond to this solicitation.
2. The District will short-list no more than eight firms for presentations on July 29-July 30 and then plan on choosing only three firms for the final recommendation.
3. The finalists who are asked to present to the Evaluation Committee, will start with a level playing field. The 200 points that will be available for the interviews will NOT be added to the initial paper scoring. The team you bring is very important. The presentations will not include any marketing people, it is expected that the site superintendent, the safety person, and on-site project manager must take part in the presentation.
4. The “Elevator” for the project will be preordered by the School District to get it into the production line because delivery could be as much as 12 months out. Each of the ***final selected bidders for the project shall include the total cost of the elevator in their lump sum price on bid day.*** Once the contract is awarded to the selected General Contractor, they will subsequently be required to issue their own contract to the elevator supplier to replace the District’s purchase order with their own and thus take over the order. The amount of the PO and the “elevator” firm will be in announced during the IFB process.
5. “Speedfloor” will provide on-site oversight. Additional information is provided in the PowerPoint attachment.
6. The three selected qualified bidders will receive the IFB on or before August 30, 2019.
7. All other terms and conditions remain the same.
8. Please acknowledge this Amendment in your response.
9. End of Amendment #2.
